

## **Uncontrolled Asthma Referral Form**

This is a Donated Service Programme funded by AstraZeneca & developed in collaboration with the NHS England (NHSE) hosted Accelerated Access Collaborative (AAC)

This referral form remains entirely confidential. No information whatsoever is shared with AstraZeneca.

Please note only coded data will be pulled through, please add any missing information via free text

<b>Reason for Referral</b> (Please add relevant free text)	
Referring Organisation	Organisation Name Organisation National Practice Code

Date	Short date letter merged
Patient Name	Title Given Name Surname
DOB	Date of Birth
NHS No	NHS Number
Telephone Number (Mobile)	Patient Mobile Telephone
Telephone Number (Home)	Patient Home Telephone
Address	Home Full Address (single line)
Email address	Patient E-mail Address
Ethnic Group	Ethnic Origin
Main Spoken Language	Main Language

### **Diagnosis**

Description in Patient Record	Date of Entry
Asthma Diagnosis	Single Code Entry: Asthma...
Last Asthma Review	Single Code Entry: Asthma annual review
COPD	Single Code Entry: Chronic obstructive pulmonary disease
Eczema	Single Code Entry: Eczema
Hay Fever	Single Code Entry: Hay fever - pollens...
Chronic Rhinosinusitis	Single Code Entry: Chronic rhinosinusitis
Nasal Polyps	Single Code Entry: Polyp of nasal cavity and/or nasal sinus...
Gastro-oesophageal reflux disease (GORD)	Single Code Entry: Gastrooesophageal reflux disease
Allergies	Allergies
Severe Asthma	Single Code Entry: Severe asthma
Anxiety/Depression	Single Code Entry: Mixed anxiety and depressive disorder...

### **Other Diagnosis**

Description in Patient Record	Date of Entry
Diabetes	Single Code Entry: Type 2 diabetes mellitus...
CHD	Single Code Entry: IHD - Ischaemic heart disease
Heart Failure	Single Code Entry: Heart failure...
Hypertension	Single Code Entry: Essential hypertension
Atrial Fibrillation	Single Code Entry: Atrial fibrillation
Stroke/TIA	Single Code Entry: [RFC] Stroke...
PAD	Single Code Entry: Claudication...
CKD	Single Code Entry: Chronic kidney disease stage 1...
Obesity	Single Code Entry: Obesity

### Exacerbations/Symptom Control

Hospital Admission for Asthma	Single Code Entry: Emergency hospital admission for asthma
Number of Asthma Exacerbations (last 12m)	Single Code Entry: Number of asthma exacerbations in past year
Inhaler (s) technique checked	Single Code Entry: Inhaler technique - good...

### Current Acute & Repeat Medication

#### Medication

Enter information below from Clinical System findings (over the past 12 months)

We need to understand not only the patient's current prescription, but how these medicines have been used. This is particularly important for systemic and inhaled corticosteroids. For the last year, please complete the table below:					
Number of SABA inhaler*					
Number of ICS inhaler*					
Number of ICS/LABA inhaler*					
Number of Systemic Corticosteroid					
Maintenance oral steroid (mOCS)?	Y		N		
mOCS dose					
mOCS duration (approx.)					

\*SABA – Short Acting Beta Agonist; ICS – Inhaled Corticosteroid; ICS/LABA – Inhaled Corticosteroid/Long Acting Beta Agonist

#### Patient Biometrics

Smoking Status	Smoking
Pack Year History	Single Code Entry: Cigarette pack-years
Electronic Cigarettes/Vaping	Single Code Entry: Electronic cigarette vaper
O/E Height	Single Code Entry: Standing height
O/E Weight	Single Code Entry: Body weight
BMI	Single Code Entry: Body mass index
Chest X-Ray	Single Code Entry: Standard chest X-ray...
CT Scan	Single Code Entry: Chest CT

## Lung Function Tests

	Last 3		
Fractionated exhaled Nitric Oxide (FeNO)	Single Code Entry: FENO (fractional exhaled nitric oxide) test	Single Code Entry: FENO (fractional exhaled nitric oxide) test	Single Code Entry: FENO (fractional exhaled nitric oxide) test
Forced Expiratory Volume FEV <sub>1</sub> (L)	Single Code Entry: Forced expired volume in one second/vital capacity ratio	Single Code Entry: Forced expired volume in one second/vital capacity ratio	Single Code Entry: Forced expired volume in one second/vital capacity ratio
Percent Predicted FEV1 (%)	Single Code Entry: Percent predicted FEV1...	Single Code Entry: Percent predicted FEV1...	Single Code Entry: Percent predicted FEV1...
Forced Vital Capacity, FVC (L)	Single Code Entry: Forced vital capacity	Single Code Entry: Forced vital capacity	Single Code Entry: Forced vital capacity
Percentage of predicted forced vital capacity (%)	Single Code Entry: Percentage of predicted vital capacity	Single Code Entry: Percentage of predicted vital capacity	Single Code Entry: Percentage of predicted vital capacity
FEV1/FVC	Single Code Entry: FEV1/FVC percent...	Single Code Entry: FEV1/FVC percent...	Single Code Entry: FEV1/FVC percent...
Peak Expiratory Flow Rate PEFR (L/min)	Single Code Entry: Peak expiratory flow rate	Single Code Entry: Peak expiratory flow rate	Single Code Entry: Peak expiratory flow rate
Best Peak Expiratory Flow Rate (L/min)	Single Code Entry: Best ever peak expiratory flow rate	Single Code Entry: Best ever peak expiratory flow rate	Single Code Entry: Best ever peak expiratory flow rate

## Sputum Tests

	Last 3		
Microbial culture of sputum	Single Code Entry: Microbial culture of sputum...	Single Code Entry: Sputum microscopy...	Single Code Entry: Microbial culture of sputum...

## Blood Tests

	Last 3		
Eosinophils % Count	Single Code Entry: Percentage eosinophils...	Single Code Entry: Percentage eosinophils...	Single Code Entry: Percentage eosinophils...
Eosinophils Count	Single Code Entry: Eosinophil count...	Single Code Entry: Eosinophil count...	Single Code Entry: Eosinophil count...
Last Other Eosinophils Entry	Single Code Entry: Urinary eosinophils...		
Enter the highest recorded eosinophil count
